ROBOTIC UNSCRAMBLER FOR EMPTY PLASTIC CONTAINERS

Revolutionize empty plastic container unscrambling with the new COMPACTBOT robotic unscrambler from POSIMAT.

**COMPACTBOT will automate your filling line quickly and easily, even with limited floor space, tight budget or large variety of containers.**

Do not settle for a costly, inefficient filling process; upgrade your line with COMPACTBOT and experience a new level of automation and productivity.

# COMPACTBOT

ROBOTIC UNSCRAMBLER FOR EMPTY PLASTIC CONTAINERS

## YOU:

- Need to automatically feed your filling line.
- Do not have available floor space.
- Have limited budget for new investments.
- Have multiple formats (present or future) with different sizes, shapes and colors.
- Want to reduce energy consumption.
- Have limited personnel for implementing changeovers.
- Have limited time or personnel for performing maintenance.

## COMPACTBOT GIVES YOU:

- Efficiency and speed increase with **less robot heads**, hence, reduced investment cost.
- **Simplified format changeover**, without the need of skilled personnel, tools or change parts.
- Minimize maintenance downtime and costs with no wear or misalignment parts to replace.
- **Quick and efficient remote support** from POSIMAT, whenever is needed.

## AFTERSALES:

**Worldwide technical service** for the lifetime of the equipment (**no time limit**).

**Fast installation** and start up.

**No regular maintenance** visits or service contracts are required.

**Quick technical support** from our offices in Europe, Asia and USA.

**Available equipment upgrades**, in case of obsolescence.
